

Homelift Installation Engineer

Stannah

– Job Description

Company: Stannah Lift Services Ltd – Sales and Installations

Function: Operations

Reports to: Homelift Installation Manager

Purpose

To carry out the installation and removal of Homelift products

Key Responsibilities

1. Achieve the highest standards of health, safety and environmental performance
2. Fully engage in continuous improvement activities to enhance the efficiency and effectiveness of our operations
3. Demonstrate appropriate commercial awareness and understanding so that we achieve our required levels of productivity whilst maintaining promises to customers
4. Consistently demonstrate a performance style which supports our company values as detailed in our Company Behaviour Standards
5. Develop and maintain an appropriate level of technical knowledge and understanding to ensure products being installed comply with relevant standards and CE directives
6. Report any accidents or near misses as appropriate
7. You will ensure that all work will comply with the high standards set and expected by the business
8. Ensure you are aware of your scheduled work and loading / unloading arrangements
9. Carry out courtesy calls with customers prior to commencing works and feed back any issues identified
10. Reflect on your own personal performance to identify any development or training needs
11. Maintain standard of appearance for both yourself and the company vehicle
12. Deliver customer service consistent with our brand values and ethics
13. Monitor driving style and performance
14. Update and maintain van stock levels

This list is not exhaustive and the jobholder will be expected to undertake any duties within their capacity to meet the needs of the business and the Operations function.
