

# ICT Advisory Teacher

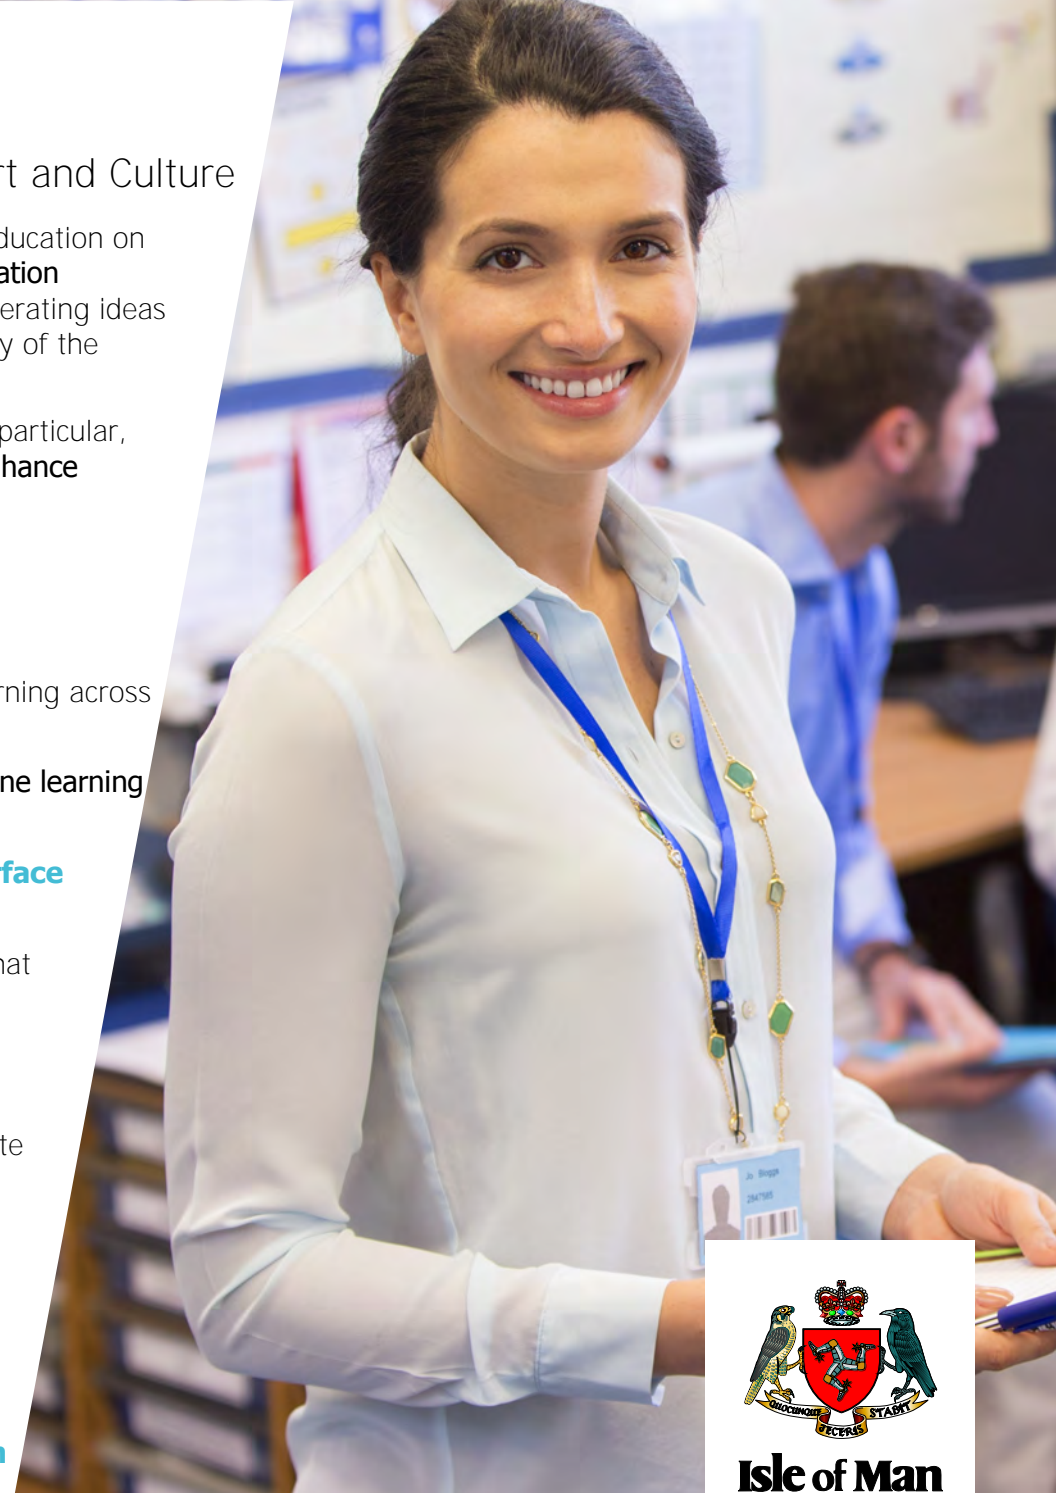

Education Improvement Service, Department of Education, Sport and Culture

This is an exciting opportunity to work in a team dedicated to improving standards in education on **the Isle of Man**. Working within the Department of Education, Sport and Culture's Education Improvement Service (EIS), you would be involved in innovation, shaping thinking, generating ideas and leading working groups of practitioners to develop the direction, content and quality of the curriculum offered.

You would join a vibrant team of Advisers, Advisory Teachers and Officers, and lead in particular, **the Island's strategic direction for ICT in learning, whilst also using your expertise to enhance learning through ICT across our 37 schools.**

## Responsibilities

- **Leading** agreed areas of EIS work in **supporting the enhancement** of ICT in learning across the Island's schools and settings
- **Supporting** the use and continued development of the Department's and other online learning platforms
- **Supporting** the coordination of Department strategy for ICT, providing a **key interface** between the Department, schools and GTS
- **Be involved** in working together, as part of a team, to develop areas of provision that impact positively on learning and teaching across the Island
- **Model**, demonstrate and **provide guidance** on a choice of teaching and learning methods/strategies
- Actively deliver **continuous professional development** through keeping up to date with the latest developments and reflecting on own practice
- **Initiate change** through the collaborative development of policy and strategy, with regards to ICT in learning
- **Participate** in working group to **promote dialogue** between DESC and GTS with regards to implementation of projects, timescales, training, resourcing/budgets and whole island initiatives affecting education
- To continue staff training devoted to the development of the **ItsLearning platform**

**Isle of Man  
Government**
