

Ard-scoil Chashtal Rushen

Castle Rushen High School

Success as you deserve

Required for September 2018

Teacher of Geography (1.0fte) Permanent

This is a key role within the Geography Team at Castle Rushen High School.

The colleague we are looking for will have the ability to teach Geography at KS5, KS4 and KS3. You will work with a team of committed and experienced specialist colleagues, and our excellent students, to drive forward our teaching and learning in Geography. The work will require flexibility; you will be delivering a variety of lessons across the secondary age and ability range. The Geography department has enjoyed consistent leadership and a core of dedicated staff over recent years, consequently it is well organised and all the courses taught are well-resourced. The subject area has an excellent record of supporting less experienced colleagues in their first years of teaching.

You will be expected to utilise a range of techniques to provide the learning in the best possible way. Basic elements of good teaching practice such as: setting relevant lesson objectives; challenging students to do their best; explaining and questioning; being flexible in your approach; responding to feedback received in a positive way; would all be essential.

Applications from a Geography graduate would be considered in the event that a suitably qualified teacher cannot be appointed.

Application Process:
